RE: Docket No. 00P-1211/CP1

FDA Dockets Management Branch (HFA-305)

Dear Dr. Henney,

I believe that genetically engineered food ingredients or crops should not be allowed on the market unless:

- 1) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
- 2) They are labeled to ensure the consumer's right-to-know, and
- 3) The biotechnology corporations that manufacture them are held responsible for any harm.

I ask that the FDA's current policies be changed, and I support the points in Docket #00P-1211/CP1.

Sincerely, *I do not wish myself, my children and grand children become guinea pigs for*
